A Glimpse of the future…

Soon Aqwertian Music Systems' Patented Fingering Algorithms will be found in a wide variety of Music Performance Devices. Some will be both light and portable handheld and others for the home Karaoke and Band. These will all capitalize on a full or subset of the Qwerty key layout as the basis for a "Universal Musical Instrument". People throughout the world have been 'practicing' for years!

If you can Type you can Play!©

Velocity, Aftertouch, and Vibrato

The Democratization of Music Performance has Arrived!

At last…Everyone can Play!™
